

Cookie Policy

As audipresents.co.uk uses only necessary cookies to operate, you are unable to opt out of 'necessary' cookies, which allow us to distinguish you from other users when you visit our website and ensure our website functions correctly on your device.

What are cookies?

A cookie is a very small text file that is saved to the hard drive of your computer or device (such as your mobile phone or tablet) when you access a website. Cookies are a well-known technology that is used by most websites in order to make the website work, or work more efficiently. Cookies do not harm your device. Our cookies collect information anonymously, so they cannot be used to personally identify you directly.

What do Cookies do?

Cookies enable us to collect information on a number of things, including recognising your device (so we can display the mobile version or tablet version of our website if you are viewing on a mobile device). Cookies also show us how you use the Audi presents website and which pages you visit allowing us to customise your experience. They also provide information that helps us monitor and improve our website's performance.

How does Audi presents uses Cookies?

You can also view a full list of Audi's cookies in the table below.

Necessary

These are the cookies that are essential for our website to operate effectively. They include cookies that allow you to access restricted areas of our website, or remember your cookie preferences. Necessary cookies can only be disabled by changing your internet browser settings, although this may mean our website will not display or function properly.

Your consent

Cookies and associated personal information used for essential purposes:

In accordance with data protection laws, we do not request your consent to use these cookies as they are necessary to ensure this website works properly. Please see our [Privacy Statement](#) for further information regarding your data protection rights.

How long do Audi's Cookies stay on your device?

The length of time that our cookies will stay on your device varies from cookie-to-cookie. Some are known as 'session cookies' which will only stay on your device whilst you are viewing our website. Others cookies, known as 'persistent cookies' will stay on your device for a longer period. Some 'persistent cookies' will expire after a certain length of time, and others will stay on your device until they are deleted.

More information?

If you would like to find out more information about cookies and their uses, or your privacy online, you may find the [Information Commissioner's](#) website useful.
